*Established In 1948 As The 100 Year Club*

April 28, 2011

Dear California Agricultural Heritage Club Applicant,

The California Exposition & State Fair, the California Farm Bureau, California Grain & Feed Association and the California Farmer Magazine are pleased to co-sponsor the California Agricultural Heritage Club for farms, ranches, agribusiness enterprises and agricultural special interests. The California Agricultural Heritage Club originally began in the 1940's and was originally founded as The 100 Year Club. The club's purpose is to recognize families, businesses and special agricultural interests that have maintained a financial responsibility in agriculture for at least a century. Special recognition was added in 2001 for those who have continued their operation 125 and 150 Years. **This year we are giving special recognition for those who have continued their operation 175 Years.** We believe these families and businesses deserve special recognition as the descendants of pioneer ranches, farms and agricultural enterprises. Together with special agricultural interests who produced, transported, sold food and fiber and provided special agricultural services during California's formative years.

Please provide information on the enclosed application related to your family, agribusiness or agricultural special interest that has been involved in an agricultural related business. It is required to include "copies" of documents to establish authenticity of the length of time shown on your application. Applications must be **postmarked no later than Friday, May 27, 2011** to be eligible for the 2011 California Agricultural Heritage Club.

The California Agricultural Heritage Club Recognition Ceremony & Brunch will be held at the California State Fair, Friday, July 29, 2011.
